

# Instructions for Forms 720-TO and 720-CS

(Rev. January 2004)

## Terminal Operator Report and Carrier Summary Report

Section references are to the Internal Revenue Code unless otherwise noted.

### General Instructions

These instructions are for paper filers. See **Pub. 3536**, Motor Fuel Excise Tax EDI Guide, for the electronic reporting instructions.

### Purpose of Forms

Form 720-TO is an information return that is used by terminal operators to report their monthly receipts and disbursements of liquid products.

*Reporting is required for inactive terminals.*

Form 720-CS is an information return that is used by bulk carriers to report their monthly receipts and disbursements of liquid products.

A liquid product is any liquid that is transported into storage at a terminal or delivered out of a terminal. See the product code table on page 6.

### When To File

Forms 720-TO and 720-CS must be filed monthly. The report is due the last day of the month following the month in which the transaction occurs.

If any due date for filing a return falls on a Saturday, Sunday, or legal holiday, you may file the return on the next business day.

Send your information return to the IRS using the U.S. Postal Service or a designated private delivery service to meet the "timely mailing as timely filing/paying" rule. See **Private Delivery Services** below.

### Where To File

Mail Forms 720-TO and 720-CS to the **Internal Revenue Service Center, Stop 5701G, Cincinnati, OH 45999**. Send the forms to the IRS in a flat mailing (not folded). Do not staple, tear, or tape any of these forms. If you are sending a large number of forms, you may send them in conveniently sized packages. On each package, write your name and EIN and number the packages consecutively. Postal regulations require forms and packages to be sent by First-Class Mail.

### How To Complete Forms 720-TO and 720-CS

Below are suggestions that will allow the IRS to process the submitted forms in the most economical manner:

1. If you need additional forms or schedules, you may use photocopies.
2. Although handwritten forms are acceptable, the IRS prefers that you type or machine print data entries using 10 pitch (pica) or 12 pitch (elite) black type. Use block print, not script characters. Insert data in the middle of the blocks not touching other printing and guidelines, and take other measures to guarantee a dark black, clear, sharp image.
3. Do not enter 0 (zero) or "None" in data entry boxes when no entry is required. Leave the boxes blank unless the instructions specifically require that you enter a 0 (zero).

### Substitute Forms 720-TO and 720-CS

If you want to prepare and use a substitute Form 720-TO or 720-CS, see **Pub. 1167**, General Rules and Specifications for Substitute Tax Forms and Schedules. If your substitute Form 720-TO or 720-CS is approved, the form approval number must be printed in the lower left margin of each substitute form you file with the IRS.

### Extension of Time To File

You may request an extension of up to 30 days to file a return. Explain the cause of the delay fully and send your request to the Internal Revenue Service Center, Stop 5701G, Cincinnati, OH 45999.

### Corrected Returns

If you filed a return with the IRS and later discover you made an error, you must correct it as soon as possible. If you filed your return electronically, see Pub. 3536 for instructions.

When making a correction to a paper filed return, you must send in the first page of Form 720-TO or 720-CS and the schedule(s) that needs to be corrected with the "Void" box checked. Identify the transaction you are correcting, either by highlighting or attaching an explanation. Then, complete another first page of Form 720-TO or 720-CS along with the corrected schedule(s) with the "Corrected" box checked. On the corrected schedule(s), only enter the information for the transaction you are correcting.

### Recordkeeping

Keep copies of information returns you have filed with the IRS or the data to reconstruct for at least 3 years from the date of the return. Your records must be available at all times for inspection by the IRS.

### Penalty

#### Failure to file correct information returns by the due date.

If you fail to file a correct information return by the due date and you cannot show reasonable cause, you may be subject to a penalty. The penalty applies if you fail to file timely, you fail to include all information required to be shown on a return, or you include incorrect information on a return. The penalty also applies if you report an incorrect employer identification number (EIN) or fail to report an EIN where required.

### Private Delivery Services

You can use certain private delivery services designated by the IRS to meet the "timely mailing as timely filing" rule for information returns. The most recent list of designated private delivery services was published by the IRS in September 2002. This list includes only the following:

- Airborne Express (Airborne): Overnight Air Express Service, Next Afternoon Service, and Second Day Service.
- DHL Worldwide Express (DHL): DHL "Same Day" Service and DHL USA Overnight.
- Federal Express (FedEx): FedEx Priority Overnight, FedEx Standard Overnight, FedEx 2Day, FedEx International Priority, and FedEx International First.

- United Parcel Service (UPS): UPS Next Day Air, UPS Next Day Air Saver, UPS 2nd Day Air, UPS 2nd Day Air A.M., UPS Worldwide Express Plus, and UPS Worldwide Express.

The private delivery service can tell you how to get written proof of the mailing date.

## Signature

Form 720-TO and Form 720-CS must be signed by a person who has authority to sign.

## Definitions

**Terminal** means a taxable fuel storage and distribution facility that is supplied by pipeline or vessel and from which liquid products, such as taxable fuel, may be removed at a rack. However, the term does not include any facility at which gasoline blendstocks are used in the manufacture of products other than finished gasoline and from which no gasoline is removed. Also, the term does not include any facility where finished gasoline, undyed diesel fuel, or undyed kerosene is stored if the facility is operated by a taxable fuel registrant and all such taxable fuel stored at the facility has been previously taxed under section 4081 upon removal from a refinery or terminal.

**Approved terminal** means a terminal that is operated by a terminal operator who is registered with the IRS and is in good standing.

**Position holder** means (for IRS information reporting only), with respect to a liquid product in a terminal, the person that holds the inventory position in the liquid product as reflected on the records of the terminal operator. A person holds the inventory position in a liquid product when that person has a contractual agreement with the terminal operator for the use of storage facilities and terminaling services at a terminal with respect to the liquid product. The term also includes a terminal operator that owns a liquid product in its terminal.

**Net gallons** means liquid product measured in U.S. gallons corrected to a temperature of sixty-degrees (60°) Fahrenheit or fifteen-degrees (15°) Celsius and to a pressure of fourteen and seven-tenths (14.7) pounds per square inch (psi).

**Gross gallons** means the total product measured in U.S. gallons without temperature or barometric adjustments.

**Consignor** means the person that hires the carrier to transport liquid product.

**Transport carriers (bulk)** includes pipelines, barges, or vessels delivering or removing liquid product at approved terminals.

**Transport carriers (non-bulk)** includes trucks or railcars delivering or removing liquid product at approved terminals and removals from terminals (other than by truck or rail) for sale or use.

**Mode of Transportation/Book Adjustment Codes.** The table below lists the mode of transportation codes. See book adjustments (Code BA) below for use of code BA instead of a transportation code.

Non-bulk	Bulk
<b>J</b> Truck	<b>B</b> Barge
<b>R</b> Rail	<b>PL</b> Pipeline
<b>RT</b> Removal from terminal (other than by truck or rail) for sale or consumption. See <b>RT-Removal from terminal</b> below	<b>S</b> Ship (great lake or ocean)

**BA-Book adjustments** are product reclassifications or conversions of products at the terminal that result in a product code change. Examples include conversion of diesel fuel #2 low sulphur undyed to diesel fuel low sulphur dyed and reclassification of jet fuel to kerosene high sulphur dyed or diesel fuel high sulphur #1 undyed. Book adjustments must be reported in summary. For book adjustments, summary reporting means the combining of all book adjustment transactions by product code for the reporting period.

- **Schedule A.** Report the book adjustments for a product code along with the other transactions for the product code.

- **Schedule B.** Do not report book adjustments on any position holder's schedule. Instead, use a separate Schedule B with "book adjustment" as the position holder.

**CE-Summary code** is used when reporting product codes 092 and 122 in summary. See **Optional Summary Reporting Instructions for Product Codes 092 and 122** on page 4.

**RT-Removal from terminal.** Monthly disbursement transactions for any product code using "RT" may be reported using the **Optional Summary Reporting Instructions for Product Codes 092 and 122 (Schedule B)** on page 4, or may be reported in detail.

## Terminal Operator Report, Form 720-TO

### Purpose of Form

Use Form 720-TO to report receipts and disbursements of all liquid products to and from all approved terminals.

*The reporting format has changed on Schedule B (Form 720-TO). A separate Schedule B must be prepared by a position holder for each product code that is destined for more than one state or has more than one mode of transportation.*

### Who Must File

Each terminal operator is required to file a separate Form 720-TO for each approved terminal.

### Part II. Terminal

**Name and location of terminal.** Enter the name and location of the terminal as published in the Federal Register for that terminal. The list of terminals is also available on the IRS website at [www.irs.gov/excise](http://www.irs.gov/excise).

**Terminal control number (TCN).** Enter the TCN assigned to the terminal's physical location by the IRS.

### Part III. Transactions for the Month

Part III is for the terminal operator to provide a monthly summary of the terminal receipts and disbursements by product code.

**Line 1.** Enter the physical inventory of net gallons by product code at the beginning of the reporting period. This should be the same number as reported for actual ending inventory the previous month.

**Line 2.** If you have more than one **Schedule A, Terminal Operator Receipts**, for a product code, combine the totals from each column (f) for the product code and enter the total on line 2.

**Line 4.** If you have more than one **Schedule B, Terminal Operator Disbursements by Position Holder**, for a product code, combine the totals from each column (e) for the product code and enter the total on line 4.

**Line 6.** Enter all gains and losses by product code. The amount entered on line 6 will show any difference, plus or (minus), between lines 5 and 7. Book adjustments or other known transactions are not considered gain or losses.

**Line 7.** Enter the actual physical ending inventory at the terminal.

## Transaction Reporting Instructions for All Product Codes

### Schedule A. Terminal Operator Receipts

Use this schedule to report each receipt of product (bulk and non-bulk) by the terminal operator. A separate Schedule A must be used for each product code.

**Note:** *Non-bulk receipts of product code 092 or 122 can be reported in summary by month instead of reporting them as separate transactions. If you wish to summarize these transactions by month, use the optional reporting instructions for Schedule A on page 4 instead of these instructions.*

## Line 1

Enter the product code from **Table 2** on page 6. Product code 122 (blending components, other) includes gasoline blendstocks as defined in Regulations section 48.4081-1(c)(3)(i) but not listed in the product code table.

## Line 2

**Column (a).** Enter the name of the carrier that transports the product into the terminal.

**Column (b).** Enter the carrier's EIN. If the carrier is a foreign flag vessel and the EIN is unknown, enter 88-8888888.

**Column (c).** Enter the mode of transportation code from **Table 1** on page 3.

**Column (d).** Enter the date the product was received into the terminal (mmddyyyy).

**Column (e).** Enter the identifying number from the document provided by the carrier that reflects the details of the transaction. This could be the terminal receipts document, pipeline ticket number, pump order number, bill of lading, barge ticket number, inspection report, etc. Both the carrier and terminal operator must report the same document number.

**Column (f).** Enter the actual net gallons received into the terminal. For non-bulk deliveries to a terminal where net gallons are not measured, enter gross gallons.

## Schedule B. Terminal Operator Disbursements by Position Holder

Use this schedule to report each disbursement of product (bulk and non-bulk) by the terminal operator by position holder. A separate Schedule B for each position holder, separating bulk from non-bulk, must be used for each product code that is destined for more than one state or has more than one mode of transportation.

**Note:** *Bulk and non-bulk disbursements of product code 092 or 122 can be reported in summary instead of reporting them as separate transactions. If you wish to summarize these transactions, use the optional reporting instructions for Schedule B below instead of these instructions.*

**Position holder (PH) name.** Enter the name of the entity holding the inventory position in the terminal.

## Line 1

Enter the product code from **Table 2** on page 6.

## Line 2

Enter the destination state code from **Table 3** on page 7. The destination state code is required for non-bulk (truck or rail car) disbursements only. If a fuel transport truck is receiving fuel destined for different states, the terminal operator will issue a bill of lading, manifest, or other shipping document for each state of destination. You are required to report each separate shipping document as a separate transaction.

## Line 3

Enter the code from **Table 1** on page 3.

**Example.** ABC Terminal is preparing Schedule B for disbursements made by position holder XYZ. XYZ disburses gasoline (PC065), diesel fuel #2 low sulphur undyed (PC 167), and jet fuel (PC130) during the month destined for two states. ABC must prepare 6 Schedule B's to report XYZ's transactions (3 product codes x 2 destination states).

## Line 4

**Column (a).** Enter the name of the carrier that transports the product out of the terminal.

**Column (b).** Enter the carrier's EIN. If the carrier is a foreign flag vessel and the EIN is unknown, enter 88-8888888. If the carrier is a military vehicle and you cannot obtain proper EIN, enter 77-7777777.

**Column (c).** Enter the date the product was removed from the terminal (mmddyyyy).

**Column (d).** Enter the identifying number from the document provided by the terminal operator to the carrier that reflects the details of the transaction. This could be a bill of lading, manifest, inspection report, or other shipping document. Both the carrier and terminal operator must report the same document number.

**Column (e).** Enter the actual net gallons disbursed from the terminal.

**Column (f).** Enter the gross gallons disbursed from the terminal as shown on the document listed in column (d). No entry is required for product codes 092 and 122.
