INTRODUCTION

INTRODUCTION

The C-VITA Training Guide is designed to offer a condensed version of the traditional Volunteer Income Tax Assistance (VITA) training to corporate and large employer partners. These corporate partners may be private businesses or corporations, financial institutions, faith-based organizations, or non-profit entities. The material incorporates basic tax law geared specifically to an Earned Income Tax Credit (EITC) audience with TaxWise *e-file* software.

C-VITA was developed as an alternative training tool for those partners who have employees or volunteers with some tax knowledge background and better than average computer skills. It can be tailored to fit the needs of the partner and the targeted customers to be served.

Certified C-VITA volunteers must provide tax assistance only to those taxpayers who have income and related tax issues covered in their tailored training and for which they were certified. C-VITA volunteers must be encouraged to refer issues not covered in this eight-hour training module to other VITA sites (as directed by the local IRS SPEC office) or to paid tax professionals.

C-VITA is not meant to be a refresher course for traditional VITA training. An integrated training approach has been developed to meet the needs of these partners. Partners who require training beyond the scope of C-VITA should be offered tailored traditional VITA training. Refer to Publication 1155, Volunteer Assistor's Guide (Instructor Guide) for information on customizing VITA training or the new integrated training approach.

TaxWise® is a copyrighted software program owned by Universal Tax Systems, Inc.® (UTS). CERTIFICATION

The certification process is as much a validation of computer skills as tax law. There are some issues in tax law that the software cannot determine. Primarily those are issues of dependency, filing status, and EITC qualifying child. Since the C-VITA course is by design a condensed course in tax law, the certification process is also condensed. In order to be certified as a C-VITA volunteer, you

must correctly answer two of three short answer questions in each of three categories: filing status, dependency, EITC. In addition, you must accurately complete one of two certification problems. These problems are designed to test both tax law knowledge and tax preparation software skills.

He gives you all the information documents he's received. He says that he has no other income. After looking at his documents, you ask him if his EIC was disallowed or reduced in the past two years and he tells you that it has not.

After being asked, he also states he did not receive any distributions from his retirement plan.

During the interview you determine he does not qualify for any adjustments to his total income. You also review his expenses and determine he cannot itemize his deductions and therefore will take the standard deduction.

INTRODUCTION

This course integrates tax law and TaxWise software. Instructors should have experience teaching traditional VITA and be very familiar with the TaxWise software. Any training that uses software will have its own inherent problems. Instructors who have previous experience teaching TaxWise will be best able to handle the many hardware and software issues that can arise during a training session.

The supplemental training material includes exercises on different aspects of tax law. Completion of the exercises is not mandatory. They are provided to the instructors and students as teaching tools where needed to ensure understanding of the material.

The classroom should have the following:

- Computers for each student
- Instructor computer module
- Projector

ALERT: TaxWise Version 18.12 contains the Advance Child Tax Credit. When using this version you will need to explain the change in tax law. It is your choice on how to treat the advance. However, the answers to the problems are based on the receipt of the full advance child tax credit.

PREPARATION

To ensure a positive learning experience, C-VITA training must be conducted in a computer room or lab. Ideally, there should be no more than 20 students. A roving instructor assistant with TaxWise experience should be available for every 10 students.

Prior to the class, the instructors should visit the computer lab and ensure the same TaxWise version is loaded and operational on each computer. The following tax form defaults should be set on each computer terminal. These procedures are based on TaxWise Version 18.12 and may need adjusting if teaching with Version 19.0 or higher. In addition, refer to Publication 3189, Volunteer e-file Administrator's Guide, for additional procedures when setting tax form defaults.

Setting Tax Form Defaults

Tax Form Defaults are used to enter information you want to appear in all tax returns such as preparer name, site address, site identification number, etc. You should log into TaxWise using the user name ADMIN to change tax form defaults. You should set these defaults before you add new user names so that settings can be copied to the new users when you add them. Return to the TaxWise Home Page and click on change user. Change to ADMIN:

- Click on Tools.
- Select Edit Tax Form Defaults.
- Highlight “1040” Package.
- Click OK.
- Click Yes on “Any changes made will only affect subsequent new returns in this user. Continue?”
- Automatically opens to the Main Information Sheet in the initial forms.

Note: Print packet defaults are no longer a part of Tax Form Defaults. TaxWise has moved this feature to the Utility Menu. See Setting Print Package Default section of this publication.

C-VITA COURSE MATERIAL

Each volunteer student should have one copy each of the following:

Publication 3888, C-VITA Training Guide

Publication 3922, C-VITA Supplemental Training Guide

Publication 17, Your Federal Income Tax Guide

Form 1040

Publication 3922 is designed both as a student guide and an instructor guide. Therefore, you may wish to remove the answers to the exercises, problems, and certification problems prior to distributing to the class. These answers are on the last two pages of the material.

TEACHING METHOD

Each C-VITA problem requires instructors to teach tax law and TaxWise simultaneously. Instructors should teach specific TaxWise features, incorporate applicable tax law, and then teach additional TaxWise features. This can be accomplished by using the TaxWise Main Information Sheet as an outline.

C-VITA is designed as a six to eight hour course. The suggested teaching times only provide an idea of how much time to spend on any one subject. However, depending on the background of the volunteers and their computer skills, the actual times may vary.

Social Security Numbers (SSN), Employer Identification Numbers (EIN), Routing Transit Numbers (RTN) and Depositor Account Numbers (DAN):

Due to the TaxWise restrictions on creating SSNs, EINs, RTNs, and DANs for training, these numbers are identified using a series of x's in the problems or on the applicable forms. During preparation, the instructor should construct a list of SSNs, EINs, RTNs and DANs needed for the training using the training EFIN where necessary. This will also allow you to create lists of numbers for multiple days of training on the same computers.

For example:

TAXWISE HINTS FOR HANDLING INCOME STATEMENTS

Form W-2

Emphasize the following:

- Addresses must match
- Electronic Form W-2 must be exactly like paper Form W-2
- Don't forget AEIC, Dependent Care Benefits, and Box 12 entries

Form 1099-DIV and Form 1099-INT

A Schedule B is now required for interest or dividends over \$1,500. It is still recommended that students develop a routine of using the worksheets where available when entering income. This enables a preparer to quickly add interest or dividends if the taxpayer forgot to provide all the statements.

Form 1099-G

Link and complete the 1099-G. Remind students to not forget any federal income tax withheld.

Form 1099-MISC

The only Form 1099-MISC that C-VITA students should handle is non-employee compensation. If a taxpayer has this form, students should open a Schedule C-EZ then link from line 1 to complete a Form 1099-MISC. Information will then carry to Schedule SE and Schedule C-EZ.

Form W-2G

Form W-2G is issued to a taxpayer when he or she receives gambling winnings. Link from Line 21 and complete a worksheet.
